## Transgender China

In the vibrant field of queer Asian studies, scholars to date have paid scant attention to transgender topics. Meanwhile, despite its already sophisticated focus on gender non-conformity, Western queer studies exhibits an equally pressing problem: the conspicuous absence of empirical and theoretical investigations of transgenderism in Northeast Asian society and culture. This volume responds to the convergence of these limitations. By bringing together experts with diverse disciplinary backgrounds in the China field, from cultural studies to history to musicology, *Transgender China* makes a timely intervention whereby emergent Sinologists explore previously untapped terrains across mainland China, Hong Kong, and Taiwan to inaugurate the field of Chinese transgender studies.
