There's a fresh take on an old standby, the book of quotations. The difference with *Wisdom for the Soul* is in the selection and organization of the quotations. Each has been chosen for its universal application and poetic quality, grouped into one of 220 themes. While the usual subjects, are represented, the collection encompasses newer psychological territory such as Actualization, Avoidance/Denial, Chaos/Uncertainty, Polarity, Synergy, Unconscious, and more.

Although the primary aim of the collection is self-help for the individual, with extensive cross-references to factors that foster or deter growth and well-being, the material will appeal to the quotation collector, speech-writer, and the general reader.
