Apocalypse, How to Survive a Global Crisis Dan Martin

Will the world, as we know it, end in 2012? It's the intention of this book to teach you what you'll need to know IF it does. Spiritual/scientific predictions, asteroid impacts, pandemics, economical/governmental collapse, solar flares, electrical grid failure, climate change, epic floods, WW3, Planet-X, peak oil, super tsunamis, alien invasions, how the government's preparing; this book has it all, and teaches how you and your family can survive it all. A complete self-help guide not only for the end times, but any global crises, of which we seem to be having plenty of lately. Written by a retired Boeing Aerospace Technician who lived six years 100% self-sufficient and cut-off from society; Dan Martin presents eye-opening views of humanity; and his insights into possible future events are breath-taking, to say the least. The book makes you wonder, is the end closer than we think? Are any of us really prepared?
