Arduino Home Automation Projects : Automate your Home using the powerful Arduino Platform (Community Experience Distilled) Marco Schwartz
Automate your home using the powerful Arduino platform

About This Book

- Interface home automation components with Arduino
- Automate your projects to communicate wirelessly using XBee, Bluetooth and WiFi
- Build seven exciting, instruction-based home automation projects with Arduino in no time

Who This Book Is For

If you want to build your own home automation systems wirelessly using the Arduino platform, this is the book for you. You will need to have some basic experience in Arduino and general programming languages, such as C and C++ to understand the projects in this book.

What You Will Learn

- Connect home automation sensors to the Arduino platform
- Use the XBee technology to build low-power wireless motion sensors
- Interface a relay with Arduino to control devices in your home
- Utilize Wi-Fi to control a lamp remotely
- Employ Bluetooth and Arduino to measure the temperature remotely
- Send energy consumption data to the cloud
- Hack an existing home automation device using Arduino

In Detail

The Arduino platform is used by more than one million people around the world to prototype electronic systems. It is the perfect platform to use to build home automation systems, as it allows you to build your own motion sensors, control lamps remotely, and control preexisting home automation devices. The Arduino platform also allows you to build wireless home automation systems using well-known technologies such as Bluetooth and Wi-Fi.

This book shows you how to use the Arduino tiny microboard to live like a king. The book covers several projects you can perform using the Arduino platform. The first few projects comprise the basics of home automation, such as building a wireless motion sensor, controlling a lamp remotely, and building a Bluetooth temperature sensor. Then, this book dives into the Internet of Things, helping you get a clear understanding of how to send measured data to the cloud. The book will wrap up by showing you how to communicate and control an existing device and build your own home automation system.

From reader reviews:

Sam Holmes:

The actual book Arduino Home Automation Projects : Automate your Home using the powerful Arduino Platform (Community Experience Distilled) will bring someone to the new experience of reading a new book. The author style to elucidate the idea is very unique. In the event you try to find new book you just read, this book very acceptable to you. The book Arduino Home Automation Projects : Automate your Home using the powerful Arduino Platform (Community Experience Distilled) is much recommended to you you just read. You can also get the e-book from the official web site, so you can easier to read the book.

Margaret Coleman:

The publication untitled Arduino Home Automation Projects : Automate your Home using the powerful Arduino Platform (Community Experience Distilled) is the e-book that recommended to you to study. You can see the quality of the book content that will be shown to a person. The language that writer use to explained their way of doing something is easily to understand. The article author was did a lot of exploration when write the book, and so the information that they share to you is absolutely accurate. You also will get the e-book of Arduino Home Automation Projects : Automate your Home using the powerful Arduino Platform (Community Experience Distilled) from the publisher to make you much more enjoy free time.

Renee Wood:

Do you have something that you want such as book? The publication lovers usually prefer to decide on book like comic, short story and the biggest the first is novel. Now, why not trying Arduino Home Automation Projects : Automate your Home using the powerful Arduino Platform (Community Experience Distilled) that give your pleasure preference will be satisfied by simply reading this book. Reading addiction all over the world can be said as the means for people to know world a great deal better then how they react in the direction of the world. It can't be explained constantly that reading routine only for the geeky man but for all of you who wants to always be success person. So , for all of you who want to start looking at as your good habit, it is possible to pick Arduino Home Automation Projects : Automate your Home using the powerful Arduino Platform (Community Experience Distilled) become your starter.

Daniel England:

Don't be worry when you are afraid that this book can filled the space in your house, you could have it in e-book approach, more simple and reachable. That Arduino Home Automation Projects : Automate your Home using the powerful Arduino Platform (Community Experience Distilled) can give you a lot of good friends because by you considering this one book you have thing that they don't and make an individual more like an interesting person. This specific book can be one of one step for you to get success. This publication offer you information that perhaps your friend doesn't recognize, by knowing more than various other make you to

be great men and women. So , why hesitate? Let me have Arduino Home Automation Projects : Automate your Home using the powerful Arduino Platform (Community Experience Distilled).
