## Remote Sensing for Environmental Data in Albania: A Strategy for Integrated Management (Nato Science Partnership Subseries: 2)

A comprehensive source book for anybody interested in the potential of remote sensing and GIS technology for the Eastern Europe countries in transition, and less developed countries in general. Leading experts from Europe, Canada and the USA cover a wide variety of applications, from the provision of satellite data to land, water and atmosphere planning issues. The individual contributions present a nice balance between theory and proved application methods.

The book is suitable for a wide spectrum of readers, such as graduate students of the environmental and geo sciences, teachers and professors, specialists at various administrative levels, political decision makers and policy makers, and technical aid GOs and NGOs.
