Does the closing of the cold war era open up the possibility of reading the *Communist Manifesto* in new ways? In the first teaching edition of the post-Cold War era, Toews proposes new guidelines for reassessing the work to help students reconstruct the meaning of the *Manifesto* in its time and at the close of the twentieth century. Together with the complete text of the work, this brief volume includes some key foundational documents by Hegel, Feurbach, Marx, Engels, and others that show the evolution of and influences on Marxist theory over time. The editor's introduction traces the trajectory of Marx's thought from the 1830s onward, while providing background on the political, social, and intellectual contexts of which the *Manifesto* was a historical product.
