Inferno (Robert Langdon) Dan Brown

#1 WORLDWIDE BESTSELLER

Harvard professor of symbology Robert Langdon awakens in an Italian hospital, disoriented and with no recollection of the past thirty-six hours, including the origin of the macabre object hidden in his belongings. With a relentless female assassin trailing them through Florence, he and his resourceful doctor, Sienna Brooks, are forced to flee. Embarking on a harrowing journey, they must unravel a series of codes, which are the work of a brilliant scientist whose obsession with the end of the world is matched only by his passion for one of the most influential masterpieces ever written, Dante Alighieri's *The Inferno*.

Dan Brown has raised the bar yet again, combining classical Italian art, history, and literature with cutting-edge science in this sumptuously entertaining thriller.
