Men against fire;; The problem of battle command in future war, S. L. A Marshall

This book, together with the After-Action Review (AAR) system of asking for unvarnished observations of all battle participants and his book, "The Soldiers Load and the Mobility of the nation" are SLAM's greatest contributions to the defense of freedom. However Men-Against-Fire (MAF) is his most controversial and led to his near destruction as an authority a few years back by revisionists jealous of his life's body of work and unwilling to let their macho image of the American marine or Soldier suffer any scrutiny. Its tragic that SLAM was actually there and most of these revisionists were not; and it all hinges on his statement of truth that in modern automatic weapons swept battlefields MOST MEN DO NOT FIRE their weapons.
