CIA agents are being systematically hunted and eliminated throughout Europe as they close in on the identity of the Iranian-linked group tied to nuclear terrorism against America's vulnerable water infrastructure. America's water supplies have been used as a weapon of war. As Washington marches toward war with Iran, Zach Greer and Elle Hardwick return from the novel *Threatened Waters* to uncover a group so powerful that many of the events of the last half-century may be tied to them. Governments, natural resources, and financial markets are being manipulated threatening a worldwide conflict between Russia, Iran, NATO and the United States.
