"Over the past few years I have been battling with skin issues and had been diagnosed with eczema. I have tried the medication prescribed which gave temporary relief but once I had finished taking my problems occurred again and again.

I started looking at alternative therapies and found this book. I had heard that some foods can cause problems and this book is the first one I have found to give me what things I should avoid (sadly some of the things I eat a lot of).

The author is laid out the information in a simple and easy to understand format with no padding."
