Critical Globalization Studies

Critical Globalization Studies

Critical Globalization Studies is the first volume to map out a *critical* approach to the rapidly growing field of globalization studies. Centrally concerned with global justice, the contributors both scrutinize and recast the subject. As well, the volume serves as a bridge connecting scholars of globalization, the policy world, and the global justice movement. The essays examine a wide range of topics too often left at the margin of globalization studies and in the process raise a host of crucial questions. Unique in its extensive and comprehensive approach, *Critical Globalization Studies* develops new and important theoretical perspectives on globalization while engaging global social activism. It is an indispensable guide for both academics and practitioners.
