Cultural Development of Mathematical Ideas: Papua New Guinea Studies (Learning in Doing: Social, Cognitive and Computational Perspectives) Geoffrey B. Saxe

Drawing upon field studies conducted in 1978, 1980, and 2001 with the Oksapmin, a remote Papua New Guinea group, Geoffrey B. Saxe traces the emergence of new forms of numerical representations and ideas in the social history of the community. In traditional life, the Oksapmin used a counting system that makes use of twenty-seven parts of the body; there is no evidence that the group used arithmetic in prehistory. As practices of economic exchange and schooling have shifted, children and adults unwittingly reproduced and altered the system in order to solve new kinds of numerical and arithmetical problems, a process that has led to new forms of collective representations in the community. While Dr. Saxe's focus is on the Oksapmin, the insights and general framework he provides are useful for understanding shifting representational forms and emerging cognitive functions in any human community. Video and visual supports for the book, the Cultural Development of Mathematical Ideas: Papua New Guinea Studies, which are key to a deeper understanding of this ground-breaking project are available online at <http://www.culturecognition.com>

From reader reviews:

Joseph Felix:

This book untitled Cultural Development of Mathematical Ideas: Papua New Guinea Studies (Learning in Doing: Social, Cognitive and Computational Perspectives) to be one of several books which best seller in this year, honestly, that is because when you read this guide you can get a lot of benefit on it. You will easily to buy this kind of book in the book store or you can order it by using online. The publisher of this book sells the e-book too. It makes you more easily to read this book, since you can read this book in your Smart phone. So there is no reason to you personally to past this e-book from your list.

Bonnie Boyd:

Reading can called mind hangout, why? Because if you find yourself reading a book mainly book entitled Cultural Development of Mathematical Ideas: Papua New Guinea Studies (Learning in Doing: Social, Cognitive and Computational Perspectives) your head will drift away trough every dimension, wandering in every aspect that maybe unknown for but surely might be your mind friends. Imaging each word written in a e-book then become one form conclusion and explanation in which maybe you never get prior to. The Cultural Development of Mathematical Ideas: Papua New Guinea Studies (Learning in Doing: Social, Cognitive and Computational Perspectives) giving you another experience more than blown away your brain but also giving you useful info for your better life within this era. So now let us explain to you the relaxing pattern here is your body and mind will likely be pleased when you are finished studying it, like winning a. Do you want to try this extraordinary investing spare time activity?

Debra Yarbrough:

Reading a book to get new life style in this year; every people loves to examine a book. When you read a book you can get a lots of benefit. When you read books, you can improve your knowledge, since book has a lot of information on it. The information that you will get depend on what sorts of book that you have read. If you need to get information about your study, you can read education books, but if you act like you want to entertain yourself you can read a fiction books, such us novel, comics, and soon. The Cultural Development of Mathematical Ideas: Papua New Guinea Studies (Learning in Doing: Social, Cognitive and Computational Perspectives) provide you with a new experience in looking at a book.

Louis Patrick:

Publication is one of source of expertise. We can add our understanding from it. Not only for students but native or citizen will need book to know the change information of year in order to year. As we know those textbooks have many advantages. Beside we all add our knowledge, could also bring us to around the world. From the book Cultural Development of Mathematical Ideas: Papua New Guinea Studies (Learning in Doing: Social, Cognitive and Computational Perspectives) we can consider more advantage. Don't you to definitely be creative people? Being creative person must like to read a book. Only choose the best book that

ideal with your aim. Don't possibly be doubt to change your life at this time book Cultural Development of Mathematical Ideas: Papua New Guinea Studies (Learning in Doing: Social, Cognitive and Computational Perspectives). You can more appealing than now.
