Clinico-Radiological Atlas of Orbital Disorders aims to be a clinical companion for students and clinicians specialising in both ophthalmology and radiology. The book begins with an introduction to basic orbital anatomy and radiology and then provides a step-by-step guide to a variety of orbital disorders, including congenital lesions, acquired structural lesions, inflammatory lesions and neoplastic lesions. A separate chapter is dedicated to secondary orbital tumours. Numerous well-illustrated photographs assist in understanding the different disorders and the determination of appropriate treatment.
