This book, according to the author, ends the misunderstandings about the scientific method - the complete method of creative problem solving and decision-making. The author has conducted extensive research in this field for over 15 years and shows the misunderstandings have created great harms in the educational field and in most other fields, including personal lives. Surveys have shown that the public is continually dissatisfied with the educational efforts. This book will be important reading for all those interested in better education, better thinking, and a better society.
