- Upon his stepfather's death, a boy returns home to find that his adoption wasn't just from another country, but from another millennia.
- A World War I fighter pilot enters a strange cloud to escape a dogfight, and exits into an entirely different war.
- A time travel agent retires from service, only to begin slipping through time without the machine's help, to a destiny he could never imagine.
- A cancelled particle research project leads one scientist to discover time travel, and a dark spiraling path across years.
