On the Genealogy of Morals (Oxford World's Classics)

Friedrich Nietzsche

On the Genealogy of Morals (Oxford World's Classics) Friedrich Nietzsche

On the Genealogy of Morals (1887) is a book about interpretation and the history of ethics which raises profoundly disquieting issues about the violence of both. This is the most sustained of Nietzsche's later works and offers one of the fullest expressions of his characteristic concerns. The introduction places his ideas within the cultural context of his own time and stresses the relevance of his work for a contemporary audience.

About the Series: For over 100 years **Oxford World's Classics** has made available the broadest spectrum of literature from around the globe. Each affordable volume reflects Oxford's commitment to scholarship, providing the most accurate text plus a wealth of other valuable features, including expert introductions by leading authorities, voluminous notes to clarify the text, up-to-date bibliographies for further study, and much more.
