Data Analysis Using Regression and Multilevel/Hierarchical Models

Andrew Gelman, Jennifer Hill

Data Analysis Using Regression and Multilevel/Hierarchical Models Andrew Gelman, Jennifer Hill Data Analysis Using Regression and Multilevel/Hierarchical Models is a comprehensive manual for the applied researcher who wants to perform data analysis using linear and nonlinear regression and multilevel models. The book introduces a wide variety of models, whilst at the same time instructing the reader in how to fit these models using available software packages. The book illustrates the concepts by working through scores of real data examples that have arisen from the authors' own applied research, with programming codes provided for each one. Topics covered include causal inference, including regression, poststratification, matching, regression discontinuity, and instrumental variables, as well as multilevel logistic regression and missing-data imputation. Practical tips regarding building, fitting, and understanding are provided throughout. Author resource page: http://www.stat.columbia.edu/~gelman/arm/

From reader reviews:

Sheila Foxworth:

Do you have favorite book? If you have, what is your favorite's book? Guide is very important thing for us to be aware of everything in the world. Each guide has different aim as well as goal; it means that e-book has different type. Some people experience enjoy to spend their the perfect time to read a book. They may be reading whatever they have because their hobby is definitely reading a book. What about the person who don't like reading through a book? Sometime, individual feel need book after they found difficult problem or even exercise. Well, probably you will want this Data Analysis Using Regression and Multilevel/Hierarchical Models.

Dustin Alvarez:

Is it a person who having spare time after that spend it whole day by watching television programs or just lying down on the bed? Do you need something totally new? This Data Analysis Using Regression and Multilevel/Hierarchical Models can be the answer, oh how comes? It's a book you know. You are so out of date, spending your extra time by reading in this completely new era is common not a geek activity. So what these books have than the others?

Heidi Montgomery:

You may get this Data Analysis Using Regression and Multilevel/Hierarchical Models by go to the bookstore or Mall. Just simply viewing or reviewing it could to be your solve difficulty if you get difficulties to your knowledge. Kinds of this guide are various. Not only through written or printed but also can you enjoy this book through e-book. In the modern era similar to now, you just looking of your mobile phone and searching what your problem. Right now, choose your personal ways to get more information about your reserve. It is most important to arrange yourself to make your knowledge are still revise. Let's try to choose appropriate ways for you.

Patsy Kuster:

Some individuals said that they feel bored stiff when they reading a e-book. They are directly felt it when they get a half parts of the book. You can choose the book Data Analysis Using Regression and Multilevel/Hierarchical Models to make your reading is interesting. Your current skill of reading ability is developing when you including reading. Try to choose basic book to make you enjoy to see it and mingle the impression about book and reading especially. It is to be 1st opinion for you to like to open a book and examine it. Beside that the guide Data Analysis Using Regression and Multilevel/Hierarchical Models can to be a newly purchased friend when you're feel alone and confuse in doing what must you're doing of these time.
