Asian women are among men's most favorite, due to their caring behavior, dedication to family values and, obviously, for being among the most beautiful women in the world. As this planet changes furthermore into a melting pot of different cultures, the understanding of what makes us different allows a better assimilation of the characteristics that enable more harmony among people of different backgrounds. Every human being is unique and we must be aware that when analyzing a concept as vague as Asian women we're basically dealing with stereotypes as well as tendencies, common behaviors and, at most, probabilities, that couldn't represent all women in Asia or abroad. Within these boundaries, this book won't try to explain the reasons behind the facts, but rather describe what can be expected from a relationship with an Asian woman. The knowledge here presented resumes years of interviews with hundreds of women in Asia regarding their expectations, needs and believes, but also with men that married them.
