In many ways, the two fields of victimology and crime prevention have developed along parallel yet separate paths, and the literature on both has been scattered across disciplines as varied as sociology, law and criminology, public health and medicine, political science and public policy, economics, psychology and human services, and others. The **Encyclopedia of Victimology and Crime Prevention** brings together in one authoritative resource the dispersed information and knowledge on both victimology and crime prevention. With nearly 375 entries, this two-volume set moves victimology and crime prevention one step further into recognized scholarly fields whose research informs practice and whose practice informs research.

Key Features

- Provides users with the most authoritative and comprehensive coverage available on victimology and crime prevention
- Presents victimology and crime prevention as their own separate, justifiable disciplines rather than subfields within more established disciplines
