Science of Being Eugene Fersen

SCIENCE OF BEING (also known as The Seven Lessons) takes away the veil of mystery from everything it touches and presents to the world a simple, clear, and at the same time complete interpretation of the invisible Universal Forces and Powers and their visible operation in Nature and in the lives of human beings. It explains the Fundamentals of Existence. It unveils the origin of Man and adjusts his relation to his fellow beings and to the World in which he lives. It elucidates the different Laws which underlie and govern all Creation. It unearths the limitless treasures of qualities and powers which Man possesses at his very birth, and furthermore it sets forth simple and direct methods for putting into practical daily application those wonderful Forces and Laws.
